May 4, 1992

Dear Documents Librarian:

In my February 4, 1992 letter, which appeared in Administrative Notes, vol. 13, #4, 2/15/92, I requested that you return the CD-ROM entitled **Schools and Staffing Survey, 1987-1988** to the National Center for Education Statistics (NCES) as the disc was defective.

NCES recently informed the Library Programs Service that only one half of the CD-ROMs had been returned to the issuing agency for replacement. I am again requesting that you comply with NCES directions and return the **Schools and Staffing Survey, 1987-1988** CD-ROM to the following address:

Statistical Standard and Methodology Division  
National Center for Education Statistics  
555 New Jersey Avenue NW, Room 410

## The Program Manager's Support System (PMSS) Software Unavailable from LPS

In 1991 the Library Programs Service distributed documentation for several modules of The Program Manager's Support System (PMSS) from the Defense Department's Defense Systems Management College. Upon receiving inquiries from documents librarians about the availability of software, LPS contacted the issuing agency. Defense Department staff stated that the software and technical documentation are prototypes under review and modification by Defense Department and other government users. These products are intended to educate and train the DoD systems acquisition community.

While the audience of this product is Defense Department and other government users, the information is not proprietary. However, the Federal Depository Library Program cannot distribute the software as the issuing agency has not procured it through the Government Printing Office. Further information can be obtained at the following address:

Defense Systems Management College  
ATTN: DRI-S (Software Distribution Center)  
Fort Belvoir, VA 22060-5426  
Tel: (703) 780-1850

## **Congressional Bills and Resolutions Missing from Microfiche Set**

The Library Programs Service has offered the Congressional Bills and Resolutions in microfiche under item number 1006-A, SuDocs class stem Y 1.4/(nos) since 1981. LPS sometimes fails to receive some bills as issued because of administrative errors. To locate missing bills, LPS contacts GPO's Congressional Printing Management Division, the House Document Room, and the Senate Document Room. Sometimes LPS fails to obtain copies of the missing bills because they are out of print.

Because of these problems, the microfiche set and the Final Cumulative Finding Aid have not always contained every House and Senate Bill and Resolution. Shipping list 92-0424-M, dated April 2, 1992, was the first to indicate that the Final Cumulative Finding Aid, House and Senate Bills, 102nd Congress, 1st Session, (GP 3.28:102/1) was incomplete.

The following bills are missing from the set of microfiche: H.R. 3749 - 3755 and 3779. To avoid issuing incomplete microfiche sets in the future, LPS will contact the Library of Congress and the U.S. Senate Library, in addition to the sources noted above, to obtain photocopies of any missing bills .

## **Missing Pages to be Issued For Defective Copy of Labor Publication**

Upon discovering that one of its publications is missing some pages, the Employment and Training Administration of the Department of Labor has made plans to issue the missing pages in the form of errata sheets. The pages are missing from Chapter 9 in **The Revised Handbook for Analyzing Jobs, 1991**. The issuing agency plans to print the errata sheets soon, though no timetable for their distribution can be supplied at this time.

Descriptive information on this publication:

## Covers Reversed on 2 NHTSA Publications: Reprinting Planned

The Library Programs Service distributed the **Police Personnel Allocation Manual State-Wide Agencies** and the **Police Personnel Allocation Manual Sheriffs' Departments** in February, 1992. Subsequently, a documents librarian informed LPS that the covers of these publications were reversed. Upon examination of the stock, the entire press run was found to be faulty.

Both publications will be reprinted. No date for distribution of replacement copies can be supplied at this time.

Descriptive information on these two publications:

### **Guides to Imports/Exports of Merchandise on CD-ROM**

Along with many other libraries, the George Mason University Library supplies its users with instructions for using depository CD-ROMs. Susan Haynes, Associate Librarian for Collection Services, sent the two samples which appear below, noting that the library's goal is to provide similar guides for all government CD-ROM products to help the endusers access the products quickly. "Having guides such as this one eliminates the frustration for patrons and library staff and eliminates having software for one program installed on several machines by patrons. We find that our patrons are generally computer-wise and need only a few 'get-started' procedures."
